Beads of Courage

Denny Dahlberg

Beads of Courage Project to Honor Bob Jensen – kits provided by Jim Jacobs

Bob & Diane Puetz are asking those who have volunteered to make these special boxes to do 3 things:

1. **Finish** the boxes as soon as you reasonably can
 2. Get the **boxes to Bob & Diane** in a reasonably short time after you finish them (see list of drop off sites)
 3. **Take pictures of your finished boxes** and send them to Editor Mike Rohrer so we may put the pictures in the newsletter and have a photographic history of this special project.
- If you have any questions, please contact Bob or Diane at: bobpuetz@yahoo.com

It would be good if you would confirm via email when you will be bringing the finished Beads of Courage boxes

Beads of Courage Project to Honor Bob Jensen

Mike Lucido

Steve Legvold

Greg Just

Here is my first Beads of Courage box for 2021. My goal for 2021 is to beat the 15 I made in 2020. The box was made from scraps of walnut leftover from previous projects.

Instant Gallery

Continued on next page

This is a new “Glue Fixture and Press” I made to glue up segmented bowls. This will be my first segmented bowl and my first ever wood bowl.

Continued on next page

Lee Tourtelotte submitted these. "It is amazingly good work, both form and finishing! The wall thickness is less than 1/16". George made over 150 of these cutters and sells them for \$25. each."*

*George is a totally blind former MWA member

Instant Gallery (cont'd)

James Zangl

Over the last 30 years or so, I have turned a lot of round objects. My grand niece, an inquisitive sort, asked why? Her father makes flat things, don't you know. After trying to explain geometry and circles and technical stuff, I started to wonder.

Well, I ended up turning a cube just because. Not the greatest, but it was a first try.

Continued on next page

Carved, filled with stone dust, painted and polished

Continued on next page

Triple axis, Eric Lofstrom style flame, 5 ½" x 3 ½".
Little leaf linden, red food coloring stain, wipe-on poly

Continued on next page

Asymmetric triple axis, 6 ½" x 2 ½", walnut, wipe-on poly

I've taken a number of virtual demos from Trent Bosch's Virtual Woodturning. Last week I watched a demo by Art Liestman, the "Lost Wood" technique. This cherry box is my first attempt and I made a few mistakes, but that's what's fun about trying something new – chances are we'll figure out why we messed up and the next ones will get better.

Ask A Turner

Joe Zwirn

Joe Zwirn would like to talk to someone who has done resin bowl casting with or without a pressure pot.

Please give Joe a call at: 612-619-4793

Monthly Challenge

New 2021 Monthly Meeting Challenge.

We are going to start up the monthly challenge.

The challenge will start in February and sponsored by Woodcraft. We will have some \$10.00 Woodcraft gift cards to give out through a random drawing giving all an equal chance to win. Number of cards to be determined.

To be included in the gift card drawing, pictures and description should be submitted via email to Mike Rohrer mdrprof@gmail.com *once finished but no later than one week before the Monthly Meeting date.* All have an equal chance at winning a gift card.

It is not necessary but if you include a picture of the raw material it will add some interest as the Challenge Pieces are posted.

You received a notice for the new Monthly Challenge. The Challenge for February is a turning that starts from plywood or a 2x4. Please send me pictures of your Challenge turning as soon as it is finished. The deadline is the Saturday before the next meeting, so the deadline for the February Challenge is Jan 30.

There is no judging; prizes will be given by a drawing. As soon as Mike Rohrer receives pictures of your challenge, your name is put in the pot to be drawn (electronically, by some random choosing program).

Continued on next page

Monthly Challenge February (cont'd)

Greg Just

This was made from plywood scraps I had lying around and measures 5" tall by 5 3/4" wide. It's topped off with a ring of walnut. Nasty stuff to turn as it was irritating my sinuses even with a mask.

Continued on next page

Monthly Challenge February (cont'd)

Rolf Krogstad

My 2x4 challenge piece is 5 1/2" high. The glue joint is visible in the shot of it mounted on the lathe.

WIT EXCHANGE VIRTUAL 2020

Women In Turning Virtual EXchange PROJECT SPEED TALKS.

62 Women. 6 Countries. 21 Teams.
21 Collaborations. 5 Minutes Each.

Saturday, January 16, 4PM ET.

Free. Registration Required: tinyurl.com/WITX2021

W.I.T. (Women In Turning) International Collaboration Project

The W.I.T. collaboration project was presented as a Zoom demonstration on Saturday, January 16. This project was international and included women turners and other artists from 6 different countries. Marie Anderson and MWA member, Linda Ferber, took the role of facilitators. They held two weekly zoom meetings for 2 1/2 months to mentor the teams, help when needed and also keep track of progress. A steering committee came up with adjectives and nouns from which each group could pick one noun and its modifier and from there develop their project based on what those words meant to them and how they could translate them into a project that included woodturning.

W.I.T. (Women In Turning) International Collaboration Project (cont'd)

A collaborative group from the MWA comprising Linda Ferber, Rosanne Gold, Ellen Starr and Janese Evans chose the words Fluid Containment on which they based their project.

Linda was also in the collaborative group, Symposium Chums, which developed this sculpture, which can be construed & constructed in numerous ways

W.I.T. (Women In Turning) International Collaboration Project (cont'd)

Linda was also in the group, Ring Masters, which made this collaborative project signifying how mothers “pass down” so many things of all types to their children

Another completed collaboration

Use the following link to see the entire presentation

It will be at this link

https://www.woodturner.org/Woodturner/WIT/WIT-Home-Page.aspx?New_ContentCollectionOrganizerCommon=9#New_ContentCollectionOrganizerCommon

The WIT newsletter at this link contains the details about how it was organized

Photography in Woodturning

Doug Johannsen

Please note in the upper right corner of this page the CORRECT spelling of Doug's name. I have been spelling it incorrectly and I really apologize.

M.D.R. Editor

*Ed. Note: In the last issue I had mentioned not wanting to pay a continuing fee to Photoshop and using the free app, GIMP – 2.10.

<https://www.gimp.org/downloads/>

Doug JOHANNSEN contributed this idea:

The version of Photoshop I use is called “Elements”. You can purchase the current version for under \$100. The Photoshop you noted in the newsletter has way more features and is only available as a monthly subscription for about \$20 per month.

Continued on next page

Photography in Woodturning

Doug Johannsen

Here's a very good 10-minute video showing how to use the light coming in from just one window. The photographer-instructor is photographing a live model, but the same principles apply when the "model" is a wood turning item.

<https://petapixel.com/2021/01/12/5-window-light-portrait-positions/>

You could easily do this with your smart phone or a camera. It's so simple but so good!

This 5-minute video shows how to use your garage as a photo studio.

<https://www.youtube.com/watch?v=iYlvn3rFtTY>

These techniques can be used photographing your woodturning projects.

Photography in Woodturning

Doug Johannsen

Another interesting,
fascinating nature
photograph from Doug

I'm attaching a photo I took yesterday of a 3-5 lb carp in the Rum River, frozen with its head sticking out of the ice. It wasn't there the day before. No human footprints are evident in the area. I'm wondering how that happened?

MWA Tuesday Turners Tune-Up

Linda Ferber

Linda's TTTU topic was "Embellishment", but she began with a short summary of the collaborative group from MWA that participated in the WIT Collaboration Project (see page 18)

MWA Tuesday Turners Tune-Up

Linda Ferber

Commitments we made:

- Collaboration
- Multimedia
- New learning

Challenges we balanced:

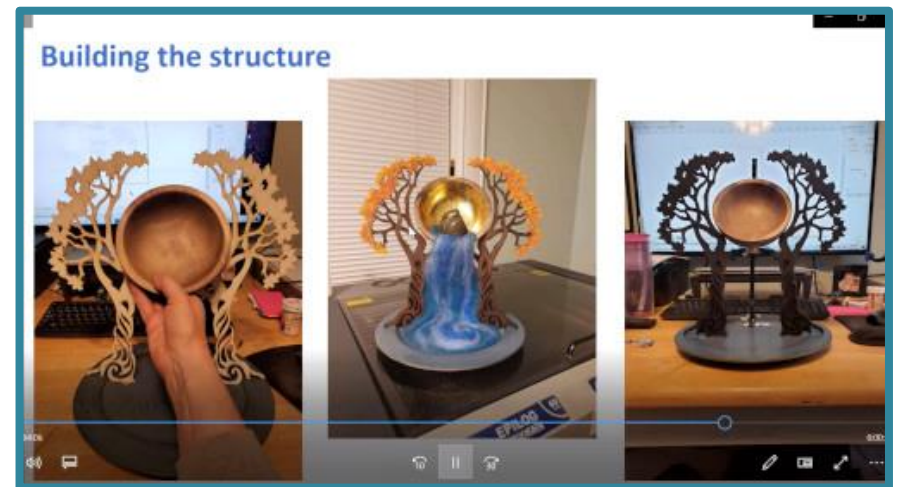

- Independence
- New team
- Geographic spread
- Urge to edit

Skills we brought:

Carving Knitting Origami Painting Tool Skills Weaving
Costuming Leather Work Stained Glass Wood Turning
Feltang Metal Work Problem Solving

Different parts of the project fabricated and modified by different group members

In progress

MWA Tuesday Turners Tune-Up

Linda Ferber

Embodying *Fluid Containment*

A sculpture that evokes the fluidity of change, while containing the elements we hold sacred.

Linda's workspace and the beginning of embellishing some small pieces

Completed collaboration

Embellishing with carving and paint

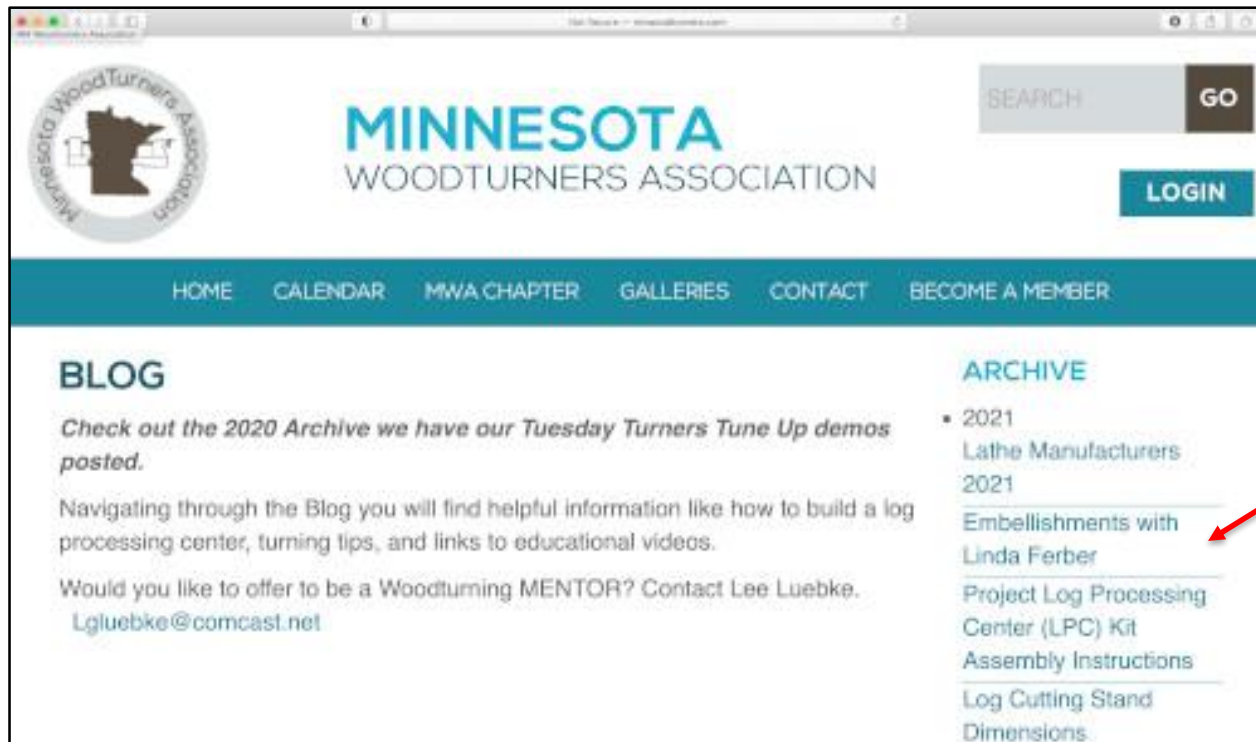

Carving with a rotary tool is a significant aspect of Linda's embellishing

MWA Tuesday Turners Tune-Up

Linda Ferber

It is best to see Linda's demo in its entirety. If you would like to see it for the first time or see it again, it is posted on the MWA website

Under MWA CHAPTER, drop down to BLOG, go to ARCHIVE, 2021 and click on Embellishments with Linda

Examples of Lathes from Most Lathe Manufacturers

James Zangl

What is the ONE TOOL that allows a woodturner to be a woodturner? What single tool is the centerpiece of a woodturner's shop?

The **LATHE**

MWA member, James Zangl, undertook a project of major proportions to provide MWA members with an in-depth look at woodturning lathes from nearly all major manufacturers.

The result of this project is beyond the scope of the newsletter and is posted on the MWA website. Examples of some of the lathes are on the following pages.

Typical details about the lathes include: cost, weight, speed control, speed indicator, indexing system, headstock/tailstock details, drive, spindle locking, reversing, motor, power requirement, swing over bed, distance between centers

Live Online Event

Betty Scarpino

Design and Inspiration for Woodturners

Saturday, January 23, 2021 - 3 p.m. Eastern Time

Kickstart your creative approach! Join us online for an extraordinary conversation with the remarkable Betty Scarpino, AAW Honorary Lifetime Member and acclaimed woodturning artist. Moderated by Cindy Drozda.

Betty will offer an in-depth exploration into woodturning design using a fast-paced PowerPoint presentation. From beginner to advanced, there will be inspiration for everyone.

- Hear about ingrained concepts and pushing boundaries.
- Learn about the deconstruction process and how using this method can make additional design variations possible.
- Find out how to evaluate the success of surface design and embellishment combinations, from subtle to outrageous.

Cost: \$15 (\$10 for AAW Members)

Registration: Open thru Friday, January 22, at noon ET.

More information and to register, visit
<https://tiny.cc/AAWMasterSeries>

Maple Burl & Others

Call me about a 4 ft. long maple burl and others at 763-441-4086.

John Enstrom

Pres. Lee Luebke

WOOD SEALER

At this time sealer is available from:

Lee Luebke, Corcoran MN, lguebke@comcast.net

Julie Abbott, Eden Prairie MN, JulieAbbott@EdinaRealty.com

Bob Meyer, Lino Lakes MN, rjmbobco@comcast.net

Steve Mages, Minnetonka, smages@juno.com

Paul Laes, Cottage Grove, Woodforfun@hotmail.com

I am looking for others to sell sealer throughout the metro area.

Bring plastic jugs if you have them.

Sealer \$10.00 gallon.

We need heavy duty plastic jugs for dispensing sealer.

If you have any gallon containers, we could sure use them. It would be best if you could bring your empty containers to be filled.

The club now has a chip card reader so you can pay Lee Luebke by credit card or cash. Each gallon is still \$10.

Anyone wanting to sell sealer can buy a quantity from me if you like or take some gallons and sell them to members and send the money to Treasurer Mark Debe.

Lee Luebke, President MWA, 612-419-8743

campbell.jn@gmail.com

Looking for a married
woman, recently
cheated on, mad and
scorned, who is willing
to sell her husband's
tools for cheap

Please send items for the Bulletin Board to: mdrprof@gmail.com

As a group which cannot meet in person, we'd like to keep up with our friends and hear about awards, shows, family news (weddings, accomplishments of children and grandchildren), retirements, hospital stays, illnesses, book recommendations, website recommendations and anything else you would normally talk about in person at MWA or Sub-Group meetings. All of these and more are possibilities for the Bulletin Board. We're not seeing our MWA friends face-to-face, but we still need to stay in touch.

Lathe Contact List

The MWA Newsletter is presenting a list of members who would be happy to give you pros & cons and experiences with the lathes they own or with which they have had experience. This list is being updated every week as more members are contacting me saying they'd be happy to be listed. If you would be willing to have your name and email address listed under the type of lathe(s) you have, please contact me .

Member Help Line

The club has organized a "Member Help Line", the purpose of which is to answer questions/give advice and help educate our membership. Even though it is more difficult during the Covid-19 social distancing time to help people in home workshops, there are still ways to help each other with woodturning questions/problems. The volunteers can help via email, telephone, Zoom, some personal contact using social distancing and masks, and probably other ways we haven't tried yet.

Maybe you're a beginner looking for advice on what to buy.

Maybe you have questions on chucking.

Maybe you have sharpening questions.

The volunteers listed on the next page are more than happy to help. Some have listed areas in which they feel more comfortable, but all will help with your woodturning question.

We would like more members to volunteer for our Member Help Line. If you would like to be "on call" please contact Mike Rohrer at mdrprof@gmail.com with your phone #, email address, area where you live, areas you'd be willing to help with, and your name will be added to the list.

Editor's Notes

Please get your photos of your February Monthly Challenge to me by Jan. 30.

Finish your Beads of Courage boxes for the Bob Jensen memorial and get the pictures to me.

The Covid vaccine is beginning to become available. I think a lot of our group is in the next priority group, over 65. Get vaccinated and we can hope things will settle down so we can meet in person again in 2021.
